

23 November 1962

MEMORANDUM FOR THE DIRECTOR

1. In moving Bud Wheelon and his family and household goods to Washington, the Agency took care of the expenses for shipment of household goods in a completely legal and administratively correct manner for the total amount with the exception of \$163. There is no legal way in which this excess amount can be paid by the Agency. I have disapproved the use of covert funds for this action, which means that Bud is out-of-pocket in that amount because of exceeding the total allowances for weight of his effects.

2. I tell you this only because of my understanding that you had made an implied commitment, in signing Bud up, that the Agency would pay all expenses of his movement.
